

11th Junior Scientist & Industry annual meeting, 29 March 2019

<i>Time</i>	<i>Session</i>	<i>Venue</i>
9am	Introduction by the GIANT Junior Ambassadors	
9.10-10am	Introductory talk Identifying and marketing your skills as a PhD By <i>Bérénice Kimpe</i> , ABC	Auditorium Maison MINATEC
10-11am	Expert panel	
11.15am-12.15pm	Workshop session 1 A: Transferrable skills and how to market them With <i>Bérénice Kimpe</i> , ABC B: Residence and work permits in France With <i>Manuel Vennier</i> , UGA ISSO C: Research life vs StartUp life With <i>Jean Poma</i> , floki.io D : Implementing effective career development strategy: existing tools (Euraxess) With <i>Lucie Jiraskova</i> , <i>UGA</i>	1 st floor Chrome 1 Chrome 2 Chrome 3 Chrome 4
12.30-1.30pm	Buffet lunch, networking and #AdoptADoc contest awards	Palladium Ground floor
1.30-2.30pm	Speed-networking	
2.30-3.30pm	Workshop session 2 A: International Mobility for PhDs With <i>Bérénice Kimpe</i> , ABC B: Residence and work permits in France With <i>Manuel Vennier</i> , UGA ISSO C: Research life vs StartUp life With <i>Jean Poma</i> , floki.io D: Working in IP consulting With <i>Nicolas Martinelli</i> , Cabinet NONY	1 st floor Chrome 1 Chrome 2 Chrome 3 Chrome 4
3.45-4.45pm	Workshop session 3 A: International Mobility for PhDs With <i>Bérénice Kimpe</i> , ABC B: Working in IP consulting With <i>Nicolas Martinelli</i> , Cabinet NONY C: The job market for young doctors in micro & nano- technology research and industry With <i>Jean-Baptiste Albertini</i> , CEA D: Co-founding by BeyondLab	1 st floor Chrome 2 Chrome 4 Chrome 1 Ground floor Palladium 2

Workshops descriptions

1A: Transferrable skills and how to market them

With *Bérénice Kimpe*, [ABC](#)

As a PhD, you have developed many skills that can be used in both academic and industrial environments, not just scientific skills. They will help you to make the jump from academia to industry. What are they? How can you relate them to your experience? That's what you're going to discuss in this workshop! Advice and tools on how to market your skills will be given at the end of the workshop. www.mydocpro.org

2A and 3A: International Mobility for PhDs

With *Bérénice Kimpe*, [ABC](#)

Doctoral candidates are strongly encouraged to engage in an experience abroad. International mobility is an opportunity to accelerate the evolution of their careers, if the project has been carefully planned and consistent with the professional goals. This workshop presents the keys for a successful international mobility experience.

1B and 2B: Residence and work permits in France

With *Manuel Vennier*, [UGA ISSO](#)

- How to renew a research residence permit in France
- Where to go to get help on this topic
- The possibilities offered by French residence permits for intra-European mobility
- Some of the options to extend your stay in France after your PhD or 'Postdoc'

1C and 2C: Research life vs StartUp life

With *Jean Poma*, [flokio.io](#)

Working in a startup or what we call "the art of putting circles into square holes" consists in to jump from a challenge to another in short time and poor means constraints. As PhD, you already developed many skills with high values for the job of startups. So, are you ready to take the startup challenge? In this workshop, you will live the experience of working in a startup and discover how high technical skills and hyper-agility actions can fit together and make real changes for sustainable solutions.

2D and 3B: Working in IP consulting

With *Nicolas Martinelli*, [Cabinet NONY](#)

This workshop will start with an introduction on IP - intellectual/industrial property and the role of patents in industry and tech transfer. The focus will be on the added value of patent engineers in the process of defending the rights, then the trainings leading to qualification or degrees will be presented. Participants will have ample time to ask questions about IP and consulting.

3C: The job market for young doctors in micro & nanotechnology research and industry

With *Jean-Baptiste Albertini*, [CEA](#)

3D: Co-founding

With [BeyondLab](#)

Are you:

- A Ph.D student close to finishing off and figuring your next move in life, and would like to meet 49 other potential opportunities?
- Desiring to create a company, but does not know where to start (we've all been there, some of us still are ;)).
- Creating a company, and looking for a co-founder/first recruits.
- Looking for your purpose in life (again, we've all been there, and some of us still are 😊)

What to do: Show up!

tl;dr : 50 people..50 minutes..come and see for yourself, it's a date like never before ;)

Panel speakers

Bérénice Kimpe, [ABG](#)

Bérénice Kimpe is in charge of international development and EU-projects at ABG-Association Bernard Gregory, which works to promote the career development of PhD-holders, the innovative capacities of businesses, and to capture the value of skills acquired through training in research.

Jean-Baptiste Albertini, [CEA](#)

Jean-Baptiste Albertini has worked in public research and administration, but also in industry, both as a PhD fellow at Télémechanique Electrique (now Schneider Electric) and as a founder and CEO of Alditech. He has recruited professionals from large and small companies alike, and he will offer insights on how work environments and job markets can differ.

Franck Badets, [CEA](#)

Carine Sebi, [Grenoble EM](#)

Carine Sebi is Assistant Professor and member of the energy management team at GEM, where she leverages and disseminates research projects in close relation with energy stakeholders. She is specialised in energy efficiency policy evaluation and global energy trends. She is currently analysing the local energy communities and the ongoing synergies between energy grids.
